

COUNCIL TO RUN SKATING RINK FOR SEASON '21 & '22

Athletic Club's Lease Expires Nov. 30; Complaints of Orgies at Town Hall To Be Investigated; Poll Tax To Be Enforced; Action re Sub-Divisions Started; Promiscuous Use of Fire Hall To Be Stopped.

On Thursday last the usual session of the Town Council was held with the Mayor presiding and all councillors present. The minutes of the previous meeting having been confirmed on the motion of Fish-Montgomery.

Letters were read from the Alberta Union of Municipalities and the Work men's Compensation Board.

The first was dealt with by a motion.

Fish-Montgomery—That the Mayor and Secretary be appointed delegates to the Municipal convention on November 15, 16, 17—Carried.

The other was a reminder that the Council would have to provide proper protection for our fire-fighters, and after the matter had been discussed.

Yeager-Fish—That the Utility Commissioner be instructed to procure two gas masks for the use of the fire brigade as recommended by the Compensation Board—Carried.

Athletic club with regard to the termination of their lease of the skating rink, brought out a lot of ideas. Councillor Yeager considered that the children of the town should have more consideration shown them in regard to the use of the rink, and stated in his opinion that private parties could run the rink more successfully than the Council of the town. Councillors McLeod and Davison both thought that the rink should be run as a public concern, and handled by the Council. The matter was eventually decided.

McLeod-Davison—That this Council handle the skating rink for the season 1921-1922, this being considered the most satisfactory arrangement—Carried.

The secretary of the Wainwright School Board wrote advising the Council that there will be three vacancies to fill on the Board at the December elections, and it was ordered that this letter be filed.

The curling club being desirous of again renting the rink for the coming season, they offered the sum of \$150 in payment, and agreed to supply their own heat and help. They asked help to obtain more water.

Davison-Fish—That the application of the Wainwright Curling club for a lease of the rink be granted and that every effort be made to supply more water—Carried.

Several citizens represented by Mr. F. Frates presented a petition for the abolition of a nuisance said to exist on lots 14-15, 26. The matter having been spoken to.

Davison-Fish—That the Board of Health be requested to clean up lots 14-15, 26—Carried.

Fire-chief Mills spoke regarding the efficiency of the brigade, and also with regard to the fire hall being left open to the public. He considered that the place should be under control, and suggested that each Councillor and each fireman have a key to the door and that it be kept locked.

He claimed that the safety of public property was jeopardized and recommended more stringent measures of safeguard.

Wiley-Fish—That the secretary be authorized to have a suitable lock placed on inner fire hall door and that keys be supplied to those authorized to enter the place—Carried.

The Finance committee reported accounts amounting to \$639.51 as correct and recommended payment of same.

Yeager-Wiley—That report be received and cheques be issued to cover payment of same—Carried.

Councillor Davison mentioned that a number of the windows at the rink required new canvas, and

Davison-Fish—That Utility Commissioner procure new canvas as required at the rink and that same be put on as soon as possible—Carried.

An account of \$30 for the moving of the U. F. W. A. room was on a motion by Davi-

ST. LUKE'S CHURCH ANNUAL PARTY IS SUCCESSFUL AFFAIR

As is always the case with the gatherings engineered by the members of St. Luke's church, the annual card party arranged by them for last Wednesday proved one more success for their efforts.

There was a large crowd in attendance, and everyone thoroughly enjoyed the card playing with which the evening's amusement started, no less than thirty-eight tables being in use.

During the interval while the judges were tallying the scores, the ladies of the church served a real dainty and enjoyable lunch, and although all present were twice (and in some cases thrice) served, so well had the ladies provided that Auctioneer Bill Goulet netted a tidy sum from the sale of extra cakes.

After supper the large crowd indulged in the vagaries of a terpsichore till early morning and the comments were freely given that the "tenth annual" was possibly the best yet.

The prize winners were as follows:—

First lady—Mrs. C. Horne, hand-painted tray.

Second lady—Miss I. Bouchard, silver vases.

Consolation—Miss J. Spencer, box of chocolates.

First gent—W. Sequin, ton of coal.

Second gent—W. Huntingford, box of cigars.

Booby—Mr. A. E. Armstrong.

Alberta Loan System may be revised soon.

Committees of three members each will be appointed by the provincial government and the Alberta Mortgage question of amendments to the existing legislation relating to mortgage procedure in this province.

This was decided at the conference between the mortgage men and the cabinet ministers, the idea being that the two committees will be named at once and will meet at an early date in order to deal among the chief points to be taken up, and for a time at least there will be a revival on what and consequent improvement in other grants.

PRODUCE

Eggs—Edmonton quotations advanced \$1 during the week, with price now \$10.50. Poultry—Market temporarily very poor, with flat price on fowl and springs of 10c; ducks and geese, 13c; turkeys in poor condition and down to 13c. Creamery Butter—Carlot price, basis specials, still 37c; cartons, 41c; make light and storage being used to fill domestic markets. Cream and Milk—Prices unchanged; cream receipts show heavy reduction.

HIDES

Firm—Some small sales of western hides reported. Not enough demand yet to warrant any change in prices, still around 20c, but prospects decidedly better, though immediate advances may not be expected.

WAIN. GYMNASIUM OPENS AGAIN FOR WINTER SEASON

We are glad to report that the Wainwright Athletic club are again taking up the work of making the gymnasium a real asset to the town.

Quite a number of our citizens have made pointed remarks regarding this side of the club's activities and it is gratifying to find that the executive of the club are unanimous in the opinion that now is the right time to put on a course of training.

To this end they have incurred the expense of finishing the rooms below the gymnasium, for the convenience of those attending the classes, and have engaged the services of a competent instructor.

He will group the classes and plan the work, and will see each student brought as near his possible to a state of perfection. He will also enforce strict discipline and at periods will stage public performances of the work of those under this care.

It has been decided that pupils only will be allowed in the gymnasium, thus having an embarrassing influence, and separate classes are being arranged for the sexes. Tickets are now on sale by the secretary at the following fees:—Men, \$3.00; women and high school pupils, \$2.00 or 50c per month; children, from grade 8 down, \$1.00 or 25c per month.

The club have decided not to handle the skating rink this year.

DR. J. B. LITTLE DIES SUDDENLY

Many will regret to learn of the sudden demise of Dr. J. B. Little, who was one of the original "old-timers" of Wainwright. The deceased gentleman who has been located with his family at Onoway, Alta. for some time, retired to bed on Monday evening in his usual apparent good health, but during the night he passed away very suddenly according to a message to his one-time partner (Dr. Middlemass) here yesterday.

THE EXAMINER'S WEEKLY REVIEW OF PROVINCIAL MARKETS

(Friday November 11th, 1921.)

CATTLE

Beef—Higher—Light receipts and active buying at Edmonton advanced prices on good to choice steers. Top steers, \$3.75 to \$4.50; good, \$3.40 to \$3.75; medium, \$2.50 to \$2.75; common, \$1.50 to \$2.00. Choice cows, \$2.50 to \$3.00; good, \$2.00 to \$2.50; medium, \$1.50 to \$2.00; common, \$1.00 to \$1.50. Canners, 50c to \$1.00. Bulls will make \$2, and range down to four bits. Choice calves, \$3.00 to \$3.75; common, \$2.00 to \$2.50. Steacker and Feeders—Steady. Hogs—Market temporarily very poor, with flat price on fowl and springs of 10c; ducks and geese, 13c; turkeys in poor condition and down to 13c. Creamery Butter—Carlot price, basis specials, still 37c; cartons, 41c; make light and storage being used to fill domestic markets. Cream and Milk—Prices unchanged; cream receipts show heavy reduction.

HOGS

Hogs—Prices are lower in Edmonton in line with other markets and most sales during the week at closing price of \$9.

SHEEP

Edmonton prices slightly better, with lambs \$6.00 to \$7.00; ewes, \$4.50 to \$5.00.

GRAIN

Higher—all prices have stiffened, but everybody nervous since big decline. Opinion fairly general that worst has passed in prices, and for a time at least there will be a revival on what and consequent improvement in other grants.

PRODUCE

Eggs—Edmonton quotations advanced \$1 during the week, with price now \$10.50. Poultry—Market temporarily very poor, with flat price on fowl and springs of 10c; ducks and geese, 13c; turkeys in poor condition and down to 13c. Creamery Butter—Carlot price, basis specials, still 37c; cartons, 41c; make light and storage being used to fill domestic markets. Cream and Milk—Prices unchanged; cream receipts show heavy reduction.

HIDES

Firm—Some small sales of western hides reported. Not enough demand yet to warrant any change in prices, still around 20c, but prospects decidedly better, though immediate advances may not be expected.

WEDDING BELLS

GLASS-NACHTERGAELE

A quiet little wedding took place at the English church village last evening when the Rev. H. Wilson united in the bonds of matrimony Miss Genevieve Nachtergaele, of Chauvin and Mr. George Glass, of Wainwright.

MONTY'S CASH STORE WILL MOVE TO NEW MAIN ST. PREMISES

Tuesday next will mark another era in the history of the Wainwright Cash Store, when business will be commenced in the splendid new brick-faced block on Main street.

This is sure a feather in the cap of "Monty" who has been a townsman for the past nine years and at each move has made a step forward in his progress as a tradesman among us.

By way of fittingly marking this latest opening, he has arranged for a special demonstration all the week of the celebrated Chase and Sanborn teas and coffees and the ladies of the town are all heartily invited to step in and sample these "goodies."

Here's wishing the new venture all success.

RESULTS OF SEPT. & OCTOBER EXAMS WAINWRIGHT SCHOOL

The following is the class standing for September and October Examinations in grades as shown:

(Literature not included)

Grade VIII.—Gordon Kenny, 82.6; Bessie Welch, 72.3; Lulu Dowling, 72.0; Gertrude Olson, 70.6; Vera Walton, 69.4; Elmer Merriek, 63.3; Jack McLeod, 59.2; Gertrude Springer, 56.6; Anna Monahan, 55.0; Vannie Stinet, 54.8; Jack Alderman, 52.2; Pauline Springer, 49.7; Vera Hodgkiss, 47.6; Royce Phillips, 46.0.

Grade IX.—May Stouffer, 82.3; Mary Watson, 85.7; Elythe Love, 85.0; Florence Torry, 82.5; Hugh Fraser, 82.0; Margaret Miles, 79.0; Mabel Prosser, 75.2; Violet Lake, 73.3; Emma Kinghorn, 70.6; Dorothy Primrose, 69.1; Miles Mabey, 67.7; Maude Aykroyd, 66.2; Mary Whitely, 66.0; Pauline Ewers, 63.0; Ernest Kenny, 61.8; Gladys Alexander, 56.3.

Grade X.—Mary Scofield, 85.0; Carolyn Roaholt, 78.5; Edith Hart, 75.3; Jean Bouchier, 72.5; Alma Miles, 72.3; Alice Hart, 70.5; Willie Watson, 68.5; Aylmer Davies, 66.5; Elmer Mills, 62.4; Helen Aykroyd, 57.2; Ernest Kent, 55.4.

Grade XI.—Phyllis Kent, 87.0; Laura Matthews, 82.0; Lucy Withnell, 79.3; Lorraine Fraser, 77.7; Amy Withnell, 73.7; Kenneth Kenny, 73.0; James Hobkirk, 62.0; Quentin Kint, 59.2.

PRAIRIE PROVINCES ASK BIG REDUCTIONS PRESENT GRAIN RATES

Winnipeg—Declaring that the basic industry of Western Canada—agriculture—was faced with absolute prostration; that farmers were leaving the country for the cities; and that the grain traffic of the railways showed absolutely disastrous returns ranging from 351 percent to 451 percent, H. J. Symington, K. C., representing the Manitoba and Saskatchewan governments and the United Grain Growers, Limited, asked the board of railway commissioners at this morning's session of the board here to make drastic and material reductions in the grain freight rates in western territories.

At the conclusion, the board announced decision would be withheld pending a further hearing to be held shortly in Ottawa.

Application of a similar nature, Mr. Symington said, was made last April but it had not brought any tangible results. "We had hoped that what had been plain to us for some time," he said, "would have brought this about. The board however, could no longer delay in bringing about this reduction. The financial prosperity of Western Canada and of the Dominion generally as well as the railways which exacted the tolls was affected."

This industry, farming, was now selling its products at prices either pre-war or less than pre-war. The rate from Calgary to the lake head were 62½ percent higher than in 1917 and from Winnipeg 80 percent higher. Prices of wheat were still falling said Mr. Symington. Thursday last being the lowest. On one dollar wheat the farmer today was unable to pay the charges. Imposed on it. The traffic simply would not bear the cost; the railways, he claimed, rushed the grain forward this fall in order to get the maximum haul and the maximum rates as they knew these rates were bound to come down. They broke records in getting grain to the lake head elevators, but they have also broken more farmers than before.

On the haul from Calgary the earnings of the railways were 351 percent while from Winnipeg they were 457 percent. Even if this was divided by four, they would still be usurious, counsel claimed. The railways admitted, he said that they made all their profits during the grain rush in the fall.

Miss Katie Scott, of Olds, Alta. is here on a visit with her sister Mrs. J. W. Stuart for a couple of weeks.

IMPERIAL OIL CO. WILL USE NATURAL GAS AT FABYAN WELL

ALTERATION OF ANGLICAN CH. SERVICES

On account of the train service to Heath not being available on Sundays, the vicar, Rev. H. Wilson, announces that a change in his services at St. Patrick's Heath, is necessitated. He has, however, arranged to hold service there on the last Sunday of each month at 3 p.m., this arrangement being subject to change after notice. The next service there will be on Sunday, Nov. 27th, at 3 p.m.

FARMER CANDIDATE DEPLORES LOSS OF MILLION CITIZENS

At a big political meeting held at Hardisty on Saturday last Mr. H. E. Spencer spoke at great length in furtherance of his claims for election to the Federal House.

His first point was on reciprocity which he said the public would have carried in 1919 had they been well informed, but which they had not been able to vote upon until the present time.

Mr. Spencer spoke of the farmer's influence for educational work and pointed out the present opportunity for grasping the reins of government and enlarging their sphere of influence. He touched upon the idea that the Union government has largely accomplished the severing of party antagonism and left people minds open a fudge a new policy on its own merits.

Mr. Spencer dwelt upon the planks of the new form of taxation, new type of representation. He pointed out that direct taxation was paid after a man had purchased necessities of life but that indirect taxation through "protection" hit men when least able to carry a further load.

He took two examples. (1) Ford's automobiles, which are sold without protection while in Canada produce cheaper cars or enrich the public treasury with their profits rather than the individual pocket; (2) Kansas Cement Co., which through protection had been able to make immense profits on material sold in the United States. He pleaded for a natural flow of trade export of wheat paid by import of manufactured articles.

He criticized the business ability of a government which allowed a railroad to be built uncontrolled in the past for the public good and now nationalized.

The speaker criticized the amount spent on the standing army and military forces as against the amount spent on agriculture.

The speaker lamented the fact that there are people moving out of the country, that more are going than coming, and that our population has been reduced by one and one-quarter million.

He criticized the issuing of victory bonds free from taxation showing that the bulk of these are now in the hands of speculators who thereby evade a large amount of income tax.

As a remedy Mr. Spencer pleaded for truer representation showing the advantages of the U.F.A. system over any other and concluded by appealing for greater freedom and equity.

The meeting concluded as all arose to sing the National Anthem.

MEETINGS IN BEHALF OF FARMER CANDIDATE

Mr. W. B. Farquharson, president of the Battle River U.F.A. political association, will address electors in Wainwright district this week as follows:—

Trasfalar School, today at 3 p.m.; Mayfield School, tonight at 8 p.m.; Ascot School, Thursday at 3 p.m.; Greenshields School, Thursday at 8 p.m.

Having secured all the leases which were formerly covered by the Gratton Oil Co. in the Gratton. Coulee some seven miles south-west of their new oil well at Fabyan, the Imperial Oil Company, who are now working at the latter place (the scene of their latest purchase), have decided to utilize the natural gas from the wells in the coulee for production of power in the heaters at the new site.

Three 60-horse-power boilers are being installed. One will be used entirely for the big hydraulic pumps, while the other two will supply engine power, hoists, electric light, etc.

Three-inch pipe of a very heavy gauge is being used, this having a pressure test of nearly 2,000 lbs.; the gas pressure at the wells since they were capped some time ago has been in the neighborhood of 700 lbs. so that an ample safety factor has been provided.

The pipe line for the gas will be laid on the ground for the seven miles between the two wells and where it crosses the Battle river will be suspended in slings from a heavy cable. It is now being taken from the siding at Fabyan to the new site by Mr. Harry Mabey, who reports that many of the buildings there are now completed—such as bunk-house, cook-house, tool sheds, etc.

It must be admitted that the Imperial Co. are certainly evincing great faith in this new well and the field around here generally, by the manner in which they are "going after" the proposition, and seeing that the holdings are some 6 miles from the town of Wainwright it will no doubt prove beneficial in a hundred and one ways should such a thing as a "Gusher" be the ultimate result of their laborious efforts.

We are asked to announce that a band practice will be held tomorrow (Thursday) night in the rink when all members are asked to be on hand.

Seventy-five per cent of the profits from the G. W. V. A. ball will be donated toward the expenses of the I. O. D. E. memorial.

Mr. J. Tansley has purchased the big barn on the Isted property on Second avenue and is busy with the moving of the structure on to his home lot.

LADY LAURIER LEAVES HISTORIC GIFTS TO MACKENZIE KING

Ottawa—The Hon. Mr. Justice Brodeur, one of the executors of the will of the late Lady Laurier, has authorized publication of that part of the will which relates to the Laurier residence at Ottawa.

From the terms of the will as quoted below the property is bequeathed without conditions to Hon. W. L. Mackenzie King, the successor of Sir Wilfrid in the leadership of the Liberal party to whom are also bequeathed the historic gifts made to Sir Wilfrid in the course of his journeys to England. These include gifts made at the time of Queen Victoria's jubilee, the coronation of King Edward VII, and of King George V., as well as the gifts symbolizing the freedom of the cities of London, Edinburgh, and other cities in the British Isles.

The extract from the will as given to the Canadian Press by Mr. Justice Brodeur is as follows: "I give and bequeath to the Hon. Wm. L. Mackenzie King my property at Ottawa, bearing Municipal Number 335 on Edwards Avenue, and the historic gifts that were made to my late husband, Sir Wilfrid Laurier, in the course of his journeys to England and which are to be found in the said residence."

"This residence having been given us by the political friends of my husband, I am of the opinion that it ought to return to the Liberal party represented by his leader, the said Mackenzie King, to be used by him as his official residence."

Always Pure and Clean in the Sealed Package

TEA is good tea

Reduce The Expenditures

The public debt of Canada is seven to eight times what it was seven years ago, and the great bulk of this enormous increase in debt represents money borrowed at a much higher rate of interest than this Dominion was called upon to pay prior to 1914. The result is that Canada's annual interest charges are now almost, if not quite, equal to the total revenue and expenditure of the Dominion a comparatively few years ago.

In addition to this tremendous drain upon the revenues of the country, Canada has a national railway system which is operating at a loss of more than a million dollars a week. Sir Joseph Flavelle, now chief of the Canadian National Railway directorate, declared a few weeks ago that the loss for 1921 would be between \$67,000,000 and \$75,000,000. He added that the system would continue to lose money and he estimated that it would be from three to five years before it could even pay operating expenses, and that it might be ten years before interest charges as well could be covered by earnings.

Canada also has today an extensive Government Merchant Marine which is operating at a loss, with many vessels tied up idle in harbors, and the capital value of the ships enormously depreciated as compared with their original cost.

Coupled with these facts the country is faced with a declining revenue from Customs occasioned by decreased world trade, and the decreased buying power of the Canadian people.

Faced with such a situation in his personal business, what would a keen financier, manufacturer, or business man do? What, in fact, do such men always do when they find liabilities and debts piling up? There is only one answer: They cut off every item of expenditure they possibly can; they stop expenditures on new ventures unless they are of an immediate revenue and profit producing character; they throw all their skill and energy into bringing their expenditure within the limits of their revenues, and rigidly refrain from incurring any new liabilities. In a word, they safeguard all their resources and devote careful attention to the strengthening of their credit.

And surely that which long experience has taught the keen financier and commercial magnate to be good business, is equally good business for the nation. But is Canada profiting by the lessons of such experience? It would seem to be necessary to record a negative answer.

In the press reports we still read of contracts being awarded for great works, such as drydocks for the Pacific Coast, to cost millions of dollars. Reports of the launching of new ships for the Government Merchant Marine still appear in print although it is an acknowledged fact that there is now a surplus of world shipping and those now in commission are losing money. Only the other day announcement was made that it had been decided to revive the building of wooden ships on the Pacific Coast.

With declining business and falling revenues, a business man loses no time in decreasing his staff; but in Canada our Government continue to pay salaries to top-heavy civil service, employing two and three men, or women, where one would be sufficient for the work demanding attention.

At a time—three years after the close of the war—when Canada should be beginning to gradually reduce the great debt created by the war, the appalling fact is that the national debt is still increasing, little or no attempt is made to restrict expenditures, and certainly no truly courageous effort is made to meet the needs of an exceedingly serious situation.

The inevitable result is that taxation is not only heavier than ever before known in this Dominion, but it is increasing, as it is bound to increase with every addition to the national debt, and as it must continue to increase until a vigorous and really effective attempt is made to stop all unnecessary expenditures, eliminate all extravagance, and reduce the total of all national expenditures to a figure, not only within the revenue, but which will produce a surplus to apply to the reduction of the existing debt.

This is not a political article in a partisan sense. The situation we have outlined in regard to the Dominion is more or less true in many of the provinces and municipalities. The debt of Ontario has been largely increased, while recent figures show that the great debt of the City of Toronto has increased by nearly \$26,000,000 between January 1 and September 30 of this year.

In view of present world conditions, this tendency to add to national, provincial and municipal debts is all wrong. It is time the people, who must bear the burden and who will be the chief sufferers in the long run if a halt is not soon called, must emphatically demand of the government and the exercise of the same principle in the management of public business which the great majority of them insist upon in the handling of their private affairs.

Memorial Day Observed

Graves in France of Canadian Dead Are Decorated

A Reuter despatch from Paris says that in connection with other commemorations the Canadian colony in France solemnly kept All Saints' Day as a memorial day for soldiers who fell in the war. A pilgrimage was made to Arras and Compiègne where many Canadians are buried. Another ceremony was held at Juvincourt, near Paris where the Canadian base hospital was situated.

Col. Hercule Barre, Canadian trade commissioner in France, decorated the graves of the Canadian dead in the cemetery there.

Saves Carbon Dioxide Gas

The world's largest industrial alcohol plant, in Baltimore, is saving and marketing a vast amount of carbon dioxide gas, obtained as a by-product and formerly wasted.

Be fair to your local merchants. Ask to see his goods and compare prices before sending your money to the mail order houses. You will find that it pays.

Tattooing is forbidden to the Jews.

Nothing Else is Aspirin—say "Bayer"

Warning. Unless you see name "Bayer" on tablets, you are not getting Aspirin at all. Why take chances?

Accept only an unbroken "Bayer" package which contains directions worked out by physicians during 21 years and proved safe by millions for Colds, Headache, Rheumatism, Neuritis, Lumbago and Pain. Made in Canada.

All druggists sell Bayer Tablets of Aspirin in handy tin boxes of 12 tablets, and in bottles of 24 and 100. Aspirin is the registered trademark of Bayer Company of Salzig, Germany. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company may be stamped with their general trade mark, the "Bayer Cross."

W. N. U. 1393

French Soldier Will Wear Khaki

But Not Until Stock of Horizon Blue Is Exhausted.

Horizon blue will be replaced by khaki as the tunic of the uniform worn by French soldiers and soldiers under a decision reached by the superior war council. The uniform of the French soldier will in future be similar in color to those of the British army. The change to khaki in the uniforms of the French army will not immediately come into effect, but will be operative when the present stocks of horizon blue cloth are exhausted. These stocks, it is said at the ministry of war, are sufficient to last for ten years.

Select Laxative Medicines With Great Care

In debility and weakness, medicine should be mild and far-reaching. Many pills and cathartics, however, are drastic instead of curative. Excessive action is always followed by depression and lassitude. Dr. Hamilton devised his pills of Dr. Drake and Butternut so as to mildly increase liver and stomach activity, as to flush out the system by toning and regulating the bowels. Thus Dr. Hamilton's pills eliminate poisons from the body, thus they restore cleanness to the skin, thus they remove new waste and strain, thus they keep your system in healthy good working order, regulate it with Dr. Hamilton's Pills. See all doctors or The Cathartone Co., Montreal.

Great Demand for Cypress Cedar

Lumber Sells From \$150 to \$200 Per Thousand Feet.

The Stettin Manufacturing Company, Ltd., which operates a large saw mill at Rusken and has extensive timber limits, will probably erect here a sawmill at Vancouver or at State Falls to manufacture cypress cedar lumber. There is a great demand for cypress cedar for making storage battery boxes, tubs for washing machines, etc.; it sells at from \$150 to \$200 a thousand feet. It is reported that the company has about two hundred million feet of cypress cedar on their limits at State Lake.

STERN REMINDERS OF RHEUMATISM

The Trouble Must Be Treated Thoroughly.

Every rheumatic sufferer should realize that rheumatism is rooted in the blood and that to get rid of it, it must be treated through the blood. The sufferer must be kept warm by cold, damp weather, is now exposed. Such weather conditions may start the pain but it is not the cause. Liniments and outward applications may give temporary relief, but that is all they can do. The sufferer must reach his sources in the blood. The sufferer from rheumatism who experiments with outward applications is only wasting time and money in depending upon such treatment; the trouble still remains, and it is all the time becoming more firmly rooted. Treat this disease through the blood and you will soon find relief. Dr. Williams' Pink Pills act directly on impure, weak blood; they purify and strengthen it, and so act on the cause of the rheumatism. Mr. P. J. MacPherson, R.R. No. 5, Cardigan, P.E.I., says: "About three years ago I was attacked with rheumatism. I began taking Dr. Williams' Pink Pills and soon the trouble disappeared and I am in better health than before. I also know of an old lady acquaintance who was badly crippled with rheumatism in her arms and legs, and who suffered very much. She, too, took Dr. Williams' Pink Pills and is now able to do her housework. I tell you in the hope it may be of benefit to others who are suffering from this trouble. You can procure Dr. Williams' Pink Pills through any dealer in medicine or they will be sent by mail at a cents a box or six boxes for \$2.50 by writing direct to Dr. Williams' Medicine Co., Brockville, Ont."

Canadian Firm's Contract.

It is officially announced that it has been decided, subject to certain formalities, to place the water contract for the erection of 26 grain elevators in South Africa with a Canadian firm. It is understood that part of the machinery will be purchased in Great Britain, but almost the whole cost of the buildings, other than the structural steel to be used therein, will be expended in South Africa.

Why Wires Hum

The humming of telegraph wires is not caused by the wind for it is heard during dead calm weather. Changes of temperature, which tighten or loosen the wires, produce the sound.

Seedy One—What does a bath cost?

Attend—Twenty cents. "You can have twice tickets for 32."

Seedy One—Say, I ain't askin' for a life subscription—Stockholm Kasper.

For some years ultraviolet rays have been used for sterilizing water, milk and other fluids. The idea has been applied to the disinfecting of barrels and casks.

Canada has nearly 600 fox farms.

Bruges, Belgium, was the centre of the world's trade in the twelfth century.

A prominent woman physician of New York City is stated to have cleared a steady income of \$30,000 annually for some years.

SUNDAY SCHOOL LESSON

LESSON FOR NOVEMBER 12

PAUL BEFORE THE ROMAN GOVERNOR.

I. PAUL ACCUSED (vv. 1-9).

Tertullus, perhaps a Roman barrister, formally made the accusation according to Roman law. He began with history. He gave Felix the fullest praise when he and all the people knew that he lied; for Felix was one of the worst governors—denial of morals and justice. He brought a four-fold charge, against Paul.

1. "A pestilent fellow" (v. 5). This would indicate a fellow utterly base and corrupt—a plague.

2. An inciter of rebellion, a mover of sedition (v. 5). This they hoped would bring him into conflict with the Roman law.

3. That he was the ringleader of a sect—a schismatical party—a heretic (v. 5).

4. That he had profaned the temple (v. 6).

II. Paul's Defense (vv. 10-21).

1. Paul's frankness and courtesy (v. 10). Flattery is entirely wanting. He gives recognition of the fact that Felix had been ruler of this people long enough to be able to judge justly, as the habits and ways of the Jews were familiar to him, and that, in a dignified manner, he assumed that Felix would render a just decision based upon the facts of the case.

2. The charge of sedition denied (vv. 11, 12). He fully and scornfully denied this charge, showing its utter falsity, since the time was too short, being but twelve days since he had come to Jerusalem, and half of that time had been spent as a prisoner of the Romans. His conduct while there disproved it—he behaved with no man in the temple; neither did he make any attempt to incite the people in the city nor in the synagogue.

3. The charge of heresy (vv. 14-16). This charge he met by a concession and a denial. He admitted that he was of the "Way" which they called heresy, but clearly showed that it was in keeping with the Hebrew religion: (1) He worshipped the same God (v. 14); (2) He fully believed in the same Scriptures (v. 14); (3) He had the same hope of a coming resurrection of the dead (v. 15). He declared that he made as the principle of life a conscience void of offense before God and man.

III. Paul before Felix the Second (vv. 22-27).

This is a sort of a sequel to the trial. Wicked as Felix was, Paul's manner somewhat won his favor, though he did not release him. His sentence was indulgent imprisonment, which kept him free from his enemies while under Roman protection. Felix sent for Paul that he might hear of Christ from him. Paul behaved himself alright before these sinners in high life. He reasoned of righteousness, self-control, judgment to come, before Felix and his sinful wife, with such power that Felix was terrified and declared that he would hear Paul further at a convenient time. This was a most timely excuse for not releasing him, and it was a great triumph to Paul. He was so in bondage to sin that he was unwilling to change. Also he hoped that by delaying matters he would receive a bribe.

New Monoplane Has Wings of Wood

Can Attain Speed of 180 Miles An Hour

A new monoplane "aerial destroyer" was demonstrated against the standard aeroplane of the Royal Air Force in the presence of the air minister, Capt. F. Guest, and members of the ministry at Northolt aerodrome. Piloted by R. W. Kenworthy, the monoplane simply leaped into the air, climbing at such a speed that it reached a height of 2,500 feet in about 70 seconds, and before it had time to climb, to a third of that height. Although the older type can fly at more than 120 miles an hour, the new monoplane flashed past it. On alighting Mr. Kenworthy said that his air speed indicator had shown 180 miles an hour.

Speaking to a Daily Mail reporter, Alex. Hogle, a Dutchman, the designer of the monoplane, said that the secret of its speed and manoeuvrability lay in the design of the wing, known as the "Ahu" wing.

Designers are finding," he said, "that at the high speeds now being attained the fabric covering of the wings under the terrific suction, but in the new wing this danger is obviated by building the entire wing of mahogany."

"Working on the principles embodied in the new monoplane," he added, "there is no reason why loads of 3,000 tons should not be carried by air."

That's Why You're Tired

—Out of Sorts—Have No Appetite—Your Liver Is Sluggish

CARTER'S LIVER PILLS

Small Pill—Small Dose—Small Price

It is always a problem for the housewife of limited means to give her family fruit. Yes, as necessary as fruit in the diet, it is also necessary in the life of the family, even when the food allowance is small.

Practically every baby book suggests orange juice as part of the baby's diet, but one can readily understand that when oranges reach less than fifteen cents a pound, as they do in all too many northern and western markets, that the orange must be saved for the baby and the rest of the family must look for the cheaper fruits.

Even the apple gets beyond the price of a dime. When this occurs, the housewife of limited means must give up the apple. It requires more time and patience to prepare dried apples for the table, but since the health of the family is a consideration, the time and effort expended seem worth while.

Wash and peel over half a measure cup of dried apples and then put them to soak in the water in which they have been soaking, adding more water if necessary. When soft, press through a strainer and add two level tablespoons of sugar, and either a few grains of nutmeg or a couple of drops of lemon or vanilla extract. This apple sauce may be served at breakfast.

If one desires a dessert for the Sunday dinner, the apple sauce made from dried apples may be made into apple snow. To a cupful of strained apple sauce add one-fourth cup of sugar, a little lemon juice and grated nutmeg. Beat one egg slightly and add to it two level tablespoons of sugar and a grain or two of salt. Add the hot milk slowly to the egg mixture and stir over hot water until the mixture coats a spoon. Remove at once from the flame. Chill and serve.

If the eggs are too expensive, one level tablespoon of cornstarch stirred into a little cold water may be substituted. Beat the white of one egg and add to it two level tablespoons of sugar and a grain or two of salt. Add the hot milk slowly to the egg mixture and stir over hot water until the mixture coats a spoon. Remove at once from the flame. Chill and serve.

The loose figs should be scrubbed and picked over and then either steamed or stewed with just a little water. Sugar may be added, but it is well to learn to like stewed figs without. Dates or figs may be mixed with farina or white cornmeal mush. They add to the dish and make extra sugar unnecessary. Also, these fruits help to give bulk to these rather "fine" foods.

Put dried raisins into your bread and rice and other cereal puddings. Chop the raisins up with some nuts and a little lemon juice and make sandwiches of the mixture for the afternoon tea party or the kiddies' lunch box.

Existence Varied.

New Butler—At what time, sir, would you wish to dine as a rule.

Profronter—At what time do the best people dine.

New Butler—At different times.

Profronter—Any way. Then I, too, will dine at different times.

It has been reckoned that a single pair of sparrows and a nest of young ones consume about 3,000 insects a week.

Ice is one of the few things that are really what they're cracked up to be.

The longest mile is Sweden's—11, 160 yards; the shortest, China's—705 yards.

Never kick a hornet's nest just to ascertain whether the family is at home.

B.C. Box Factories Busy

Total Output For 1921 Will Be 300,000 Packages

The output of the box factories at Wyndell and Canyon City this year is more than double that of 1920, and fifty per cent. greater than any previous year's. Of apple boxes alone about 150,000 have been made, some of them going to packing stations in the Okanagan while all the local requirements have been supplied. Cans and boxes for all the produce of the districts, which includes apples, pears, plums, peaches, currants, tomatoes, etc. are made in large quantities at these factories, whose total output this year will be at least 300,000 packages.

Getting the News.

"Is my wife going out this evening?" inquired the lord and master as he entered the house.

"She is, sir," the maid responded.

"And," he further questioned wearily, "am I going with her?"

Work Sun.

Where fifteen English women students come forward in any one district, the British ministry of labor is empowered to institute classes in cookery and general domestic work.

DR. MINARD, Inventor of the Celebrated

MINARD'S LINIMENT

CORNS

Lift Off with Fingers

Doesn't hurt a bit! Drop a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers. Truly!

Try drugist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, corn between the toes, and the calluses, without soreness or irritation.

THIN, FLAT HAIR

GROWS LONG, THICK AND ABUNDANT

"Dandruff" costs only 25 cents a bottle. (One application ends all dandruff, stops itching, restores falling hair, and, in a few moments, you have doubled the length of your hair. It will appear a mass, so soft, lustrous, and easy to do up. But what will please you most will be after a few weeks use, when you see new hair—fine and downy at first—growing all over the scalp. "Dandruff" is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. This delightful, stimulating tonic helps thin, lifeless, faded hair to grow thick, heavy and luxuriant.

SEED OATS NEEDED

Dear Sir:

The Department has received some inquiries for seed oats, both from Canada and American seed houses, and no doubt will receive many more such inquiries before spring.

The request no doubt will be for white oats and for such varieties as Banner, Victor, Abundance and Gold Rain, of good clean, bright, heavy oats and in car lots only. Oats that contain more than one wild oat per pound will not likely be considered at all and they must also be reasonably free from other grains or foreign matter.

As Secretary of your Agricultural Society you will no doubt know of parties in your district who have a supply of oats that will be suitable for this trade and I therefore take this privilege of asking you to be kind enough to advise such farmers to write us direct to it may be you could send us the names and addresses of such farmers.

Our idea and efforts are to put the farmer in direct communication with the buyer and with this in view we ask your kind cooperation in this matter.

I am,
Your very truly,
J. D. Smith,
Superintendent.

POLITICAL ADVERTISING

CLAIMS U.F.A. ORGANIZATION BEING USED TO SPREAD BOLSHÉVIST PROPAGANDA

W. H. Anderson, Member U.F.A., Dewberry Assets Farmer Political Movement Tolerating this Form of Insanity in Attempt to Gain Power at Ottawa

IS UNWORTHY SUPPORT OF RIGHT THINKING PEOPLE WILL SUPPORT I.W.G. MORRISON AND N. L. AND C. PARTY

Editor Standard—

With particular reference to the Ivens meetings, one of which seems to have been held rather quietly on the evening of the 25th October in the Hazeldean school-house, I would thank you for space in which to call attention to the more or less insidious attempt of a portion of the U.F.A. membership to make use of the organization as a medium for spreading Bolshevist propaganda. To the writer, it would appear that the belated idea of those smitten with this sort of thing, is that the cure for anarchy is more anarchy—in spite of the fact that it has always been plain to the discerning that the Russian Bolshevist regime, considering the comparatively enlightened times in which it is occurring, is really the crime of the ages.

As a U. F. A. member of long standing I think that patience with this almost criminal folly has long since ceased to be a virtue, particularly that it is not repudiated by the Farmer Leadership. For the past year or two it has gradually been becoming apparent to many that the Farmer Political Movement is tolerating, if not encouraging, this form of insanity with a view to gaining strength to capture the Dominion government. Regardless of any temporary success it may achieve, I am convinced that a movement founded on such false basis cannot endure and that its growth, made up largely as it is by the inciting of class antagonism and wholesale unwarranted discontent is small credit to Canada.

I wish therefore to say that I, for one consider that the attempt of this party to get Dominion control is unworthy of the support of right thinking people. Mr. Spencer, the U. F. A. "Group" Candidate for Battle River is probably as good a nominee as could have secured the U. F. A. nomination, but he stands for the system and by that he must be judged. Mr. Morrison on the other hand, is a man of ability and probity representing a party which does not preach the Class War, neither does it countenance it, but while admitting that in all sections of the people there is room for improvement it appeals to all economic classes to unite their best efforts at all times for the common weal.

For the foregoing good and sufficient reasons I am, Mr. Editor supporting J. W. G. Morrison and the National Liberal and Conservative Party now enjoying the able and patriotic leadership of Hon. Arthur Meighen—a man of whom we may all feel justly proud.

W. H. Anderson

Dewberry, Oct. 31st, 1921

(From Veritism Standard)

EASTERN CANADA FOR CHRISTMAS & NEW YEAR

With the advent of the Xmas and New Year Holiday season, the Canadian National Railways have arranged special Homevisitors' Fares to Eastern Canada, according to an announcement made elsewhere in this issue in the form of a display advertisement.

These special fare concessions are on the basis of single fare and one third for the round trip and apply from all stations in the Prairie Provinces. Tickets are on sale from December 1st, 1921, to January 15th, 1922, both days inclusive, and are good to return up to three months from date of issue.

Tickets may be routed via the "Continental Limited" through Cochrane leaving Winnipeg daily at 11:00 or via "The National" through Port Arthur, leaving Winnipeg daily 5:00 P.M. going or returning same route, or going via one route, and returning via another specified above.

Reservations on these tickets may be made in the new all steel tourist sleeping cars, but not in standard sleeping cars.

KILLING THE GOLDEN GOOSE

Will the politicians be good enough to note the following details

in connection with the marketing of 1000 bushels of Oats?

"The Star" does not particularly address any one of the great

political parties. It is a collective problem; and unless it can be

solved, it does not greatly matter which Party is functioning at

Ottawa.

(a) There is a farmer located 7 miles north of Wainwright.

(b) He has just harvested 100 bushels of oats from 33 acres of

crop.

(c) He paid 50c per bushel for seed oats, and put in 91 bushels

on the 33 acres. They cost him \$45.00

(d) He paid 40c per acre for stooking, i.e. \$13.20.

(e) He paid \$21.00 for 100 lbs. of twine.

(f) He paid the threshermen \$100.

(g) He hauled to a Wainwright elevator (2 trips per day) in 5

days. That is worth \$30, anywhere.

(h) He has, therefore, paid \$209.70 for his 1000 bushels of oats—

without charging One Cent for his Work—or Horses—or Imple-

ments—or Worry!

(i) He has been paid 160c by the Elevator man, for this 1000

bushels of Oats!

Now then, we would like our Political friends (either Crerar,

King or McInen) to imagine how much profit there was, in the

above transaction, for the farmer? The Quaker Oats profit will be

plain enough!

It will not do to advance the outworn reason that grain prices re-

spond to world conditions, and reach their proper levels, despite all

efforts to control them. That is more or less true of all products.

From Soil or Factory. In the latter case, however, decidedly effective

measures have been taken to prevent the products of the manufactur-

ers responding to price conditions in the rest of the world. But poor

friend Farmer is allowed to play his lonely and ineffective hand on

the Grain Markets of the world—where Foreign Governments and

Grain Commissions are doing the buying, and playing off one-pro-

ducing country against the other, eminently to the disadvantage of

the Farmer, everywhere.

During the past twenty-five years some splendid legislation has

been enacted, against the system of wage-slavery and sweated labor

in the industrial centres of the modern world. The system, however

has spread out into the country where Grain is no longer King—or,

at least, is without a treasury! If the labourer is worthy of his hire:

how about the Farmer?

THE CANADA TEMPERANCE ACT

Last week the Supreme Court of Canada with one member dissent-

ing, delivered its judgment upholding the constitutionality of the

amended Canada Temperance Act and of the referendums that

have been held under it. The case has been interesting and of course

in its issue has more important bearing on the position of Prohibition

in Canada. It arose out of the refusal, last February of the

Dominion Express company to carry a shipment of liquor from Van

couver to Calgary. The reason alleged by the Express Company was

that such transportation was unlawful under the Canada Temper-

ance Act. The Liquor company sued for damages first before the

Alberta Courts. According to the letter of the law, the proclamation

of the referendum, besides declaring the date on which the poll should

be held, should also state "the day on which, in the event of the vote

being in favor of prohibition, such prohibition shall come into force."

This clause was a vestige of the original Canada Temperance Act,

and provided that in some cases, sixty, in other cases thirty days

should be allowed after the vote before the prohibitory law should

come into force. In the Alberta Appeal Court a majority of the

judges dismissed the case with the ruling that it "would be almost

if not quite impossible to fix a definite day at the time of the pro-

clamation." They interpreted the section as meaning "not the specific

day of the month, but the day to be ascertained in the manner pre-

scribed by order-in-council. The case was carried to the Supreme

Court with further claims, the principal one being that the pro-

hibitory enactment was unconstitutional on the ground that under

the British America Act traffic between provinces is to be free and

unrestricted.

Tax Sale

GILT EDGE M. D. No. 422

Sale of Lands in the Municipal

District of Gilt Edge, No. 422,

for Arrears of Taxes.

Notice is hereby given that

certain lands in the Municipal

District of Gilt Edge, No. 422,

will be offered for sale for arrears

of taxes and costs on Wednesday,

December 14th, 1921 at ONE

o'clock in the afternoon at the

Council's Office, Town Hall,

Wainwright.

Unless arrears of taxes and

costs be sooner paid the Sec-

retary-Treasurer will proceed to

sell the lands for taxes at the

time and place mentioned in the

advertisement.

A full list of the said lands may

be found in the issue of The

Biggest Thing Of It's Kind Ever Seen In New York Says Druggist

The fact that 625,000 bottles of Tanol have been sold in the State of New York since its introduction, there less than one year ago, is a big business item that will attract unusual attention throughout the entire East, for nothing like it has ever happened before. It breaks all records.

Mr. George B. Evans, manager of the Gibson-Snow Company, the well-known wholesale druggists, with branches in Albany, Buffalo, Rochester and Syracuse, recently announced that the preparation was sold in their trade territories alone at the phenomenal rate of approximately 30,000 bottles a year.

"If the present rate continues," said Mr. Evans, "this State alone will probably require considerably over 750,000 bottles a year. This is a tremendous figure, but I am really conservative in making this statement."

Tanol is sold by leading druggists everywhere.

World Happenings Briefly Told

A catch of 1,630,000 pounds of fish was landed at Boston recently. It was the largest in years.

The Prussian ministry has resigned. Its decision was taken after the failure of attempts by Premier Steyerwald to reconstruct the ministry.

Fire destroyed the auditorium of the Kabuki Theatre, one of the largest and oldest in Tokyo. The loss is estimated at \$1,500,000.

Torrential rains in Western Guatemala have done great damage to property and have caused floods in which 18 persons have lost their lives.

Joseph Simonetti was found dead, head downwards, in a vat of wine, alleged to have been illicitly made, at his home in Los Angeles.

Three generations of a family were wiped out at Roy near Tacoma, Wash., when a Great Northern train crashed into an automobile, killing four persons.

A Reuter's cable from Melbourne says statistics furnished by the Australian Government show that workers lost \$1,250,000 last year in wages through 564 industrial strikes.

Terminating her thirty-ninth inward voyage the Trans-Pacific liner Empress of Russia reached Vancouver from the Far East. She brought in 290 saloon passengers, 75 second class and a large Atlantic steamer line.

Paper money reaching the enormous total of 5,750,000,000,000 roubles has been issued by the Soviet Government, the latest output being 750,000,000,000 roubles in new money for the opening of the National Bank.

Nicholas Shafer, a pioneer contractor of British Columbia, was killed when a tree fell on him at his home near Kamloops. He was born in Woodbridge, Ont., 73 years ago, and had resided in British Columbia several decades.

Twenty-four hours after he had been thawed, a shipment of frozen eggs from China, Paris health authorities say, they found the eggs contained 36,000 harmful microbes. The officials advised against their use, except for biscuit making.

Between 275 and 300 union miners employed at Mine No. 26 of the New York Coal Company at Floodwood, Athens, Ohio, went on strike as a protest against the check off injunction issued by Judge Anderson in Federal Court at Indianapolis.

James McIntosh, formerly of Glace Bay, N.S., a veteran of the Great War, started from St. John with the intention of travelling around the dry portions of the world on foot. He expects to encircle the globe in five years.

Two men in a small boat were rescued at the brink of the rapids above the falls at Niagara, after a struggle of three hours. The pair lost an oar while on the river and had drifted toward the rapids. Fortunately they bumped against a crib by which they clung until rescued.

The Block Signals Are Working—

In some respects, human experience is like railroad.

Every moment of the business and social day the block signals are giving right of way to keenness and alertness—while the slow and the heavy must wait on the sidetrack for their chance to move forward.

The ability to "go through" and to "get there" depends much on the poise of body, brain and nerves that comes with correct diet and proper nourishment.

That's why so many choose Grape-Nuts for breakfast and lunch. Served with cream or milk it is completely nourishing, partly pre-digested, and it supplies the vital mineral salts so necessary to full nutrition.

Grape-Nuts has a rich, delightful flavor, is ready to serve on the instant—and is distinctly the food for mental and physical alertness and speed. At all grocers.

"There's a Reason" for Grape-Nuts

Noted Explorer Dies

William Squires Bruce made several trips to Far North. William Squires Bruce, explorer and author, is dead. Mr. Bruce was born Aug. 1, 1867, and was educated at the University of Edinburgh. He was lecturer on geography at the Heriot Watt College and acted as naturalist for the Scottish Antarctic expedition in 1892. He continued his polar researches in 1896, when he went into the north ridge zone with the Jack-o'-Hornum polar expedition. He remained in the Arctic for two years and later made three voyages into the far north as naturalist for the Prince of Monaco.

Have You Stomach Risings, Gas, Heartburn, Sourness? Tells of a Simple Remedy

It's really wonderful, the quick relief you get from ten or twenty drops of Nervine taken in sweetened water. For cramps when the spine fell on the mountain side near a mining camp. The machine was completely wrecked. The accident is ascribed by the passengers to the inability of the plane, with its engine of small horsepower, to clear the mountain peak which appeared suddenly out of the clouds on the flight from Tampico.

Survivors in Far North

Found Indians Who Had Never Seen White Men

Government surveyors and engineers carrying their lines across the far northern banks of the great Mackenzie River during the past summer knew the result of the Carpentier-Kempney fight as soon as the crowds on the streets of Eastern Canadian cities. They received news daily from Japan, Cuba and the Philippines, and every 24 hours they checked their time with the chronometers at Anna-polis, Md.

All this they did by means of a portable wireless receiving set, carried by one of the three Dominion land survey parties. One member of that group, Fred V. Seibert, D.L.S., on his way back to Ottawa from the bleak barren of the sub-Arctic, in brief interview, referred to some of the things accomplished since last June by Dominion engineers operating in the Mackenzie River basin.

He explained that his colleagues and himself had seen lakes of 30 or 40 miles radius that had never been known to exist; inland areas, home of the Dog Ribs or other obscure Indians, that had never before felt the pressure of a white man's foot; and magnificent waterfalls, formerly unknown, on the Beaver River and measures from 300 to 400 feet across and fall perpendicular for a depth of 60 feet.

Sentenced to Death No Appeal Possible

The "death warrant" is passed out every time a corn is treated with Putnam's Corn Extractor. It means the end of the corn. Putnam's lifts out corns, root and branch, and never fails. Refuse any substitute for Putnam's, 25c everywhere.

Birds Caught With Pole and Line

Puffin of Outer Hebrides Easy to Secure. The island of St. Kilda—one of the Outer Hebrides, off the coast of Scotland—is less than two square miles in area, and yet they tower above the surf cliffs which rise to more than 1,200 feet in height. From its very location in the northern seas, St. Kilda is a natural home or resting place for myriads of birds.

One can imagine an ornithologist spending months, if not years, studying the favorite haunts of the nests, the habits and the love dreams of our feathered friends. Indeed, so solitary are these rocky heights, often capped by clouds and shrouded in mists which rise from the sea, that a bird lover could get close without frightening them away.

Chief among the birds that interest the more practical bird hunters on St. Kilda is the puffin. Instead of carrying a gun and spending powder and lead to shoot a puffin, the hunter goes to the heights with a fish pole and a line.

The pole is usually made of deal and is nine or ten feet long. The line is made into a noose of horsehair and quill.

Armed with this outfit, the hunter pushes the noose along the ground close to the puffin. It requires but one deft twist of an experienced wrist to drop the noose over the bird's head. The rest of the "main" is untroubled, and the hunting fisherman repeats the performance until he has enough for a puffin pie. Minard's Liniment for Colds, etc.

60 Years' Bank Savings. Sixty years ago the British Post Office Savings Bank was opened with a staff of 20 clerks and at the end of the first day \$4,500 had been deposited by 435 people. At its recent Diamond Jubilee the department had 15,500,000 ordinary depositors, and between five and five millions of investors in stock. Its staff numbered more than 5,000 last year.

The manufacture, sale or keeping in stock of matches containing phosphorus is illegal in Belgium.

Box borough of New York City is a big one in Baltimore in population.

Every dollar spent in your home

"YOUR TEETH"

FILLING MATERIALS.

By E.M. PROCTOR MCGEE, D.D.S., M.D., Editor of "Oral Hygiene."

Who invented fillings for teeth and what the first fillings were made of will always remain a mystery.

We know that this work has been done from ancient times, but in recent years there has been such an alarming increase in caries (decay of the teeth) that the prevention of decay and the repair of carious teeth has become an important subject to everyone.

There are three general classes of filling materials: plastics, silicates and metals.

The plastics are the various forms of dental cement and gutta-percha. The silicates are a form of translucent cement that is an imitation porcelain. The colors of the teeth can be matched accurately and this material will last well, preserving the tooth and avoiding unsightly discoloration that would be present if a metal was used in the front of the mouth in a large cavity.

The metals used were used for some years but they are now obsolete. A metal is used where there is great strain on the filling.

Amalgam, which is an alloy of silver and tin, is the most widely used filling in the world. It has done splendid service and is used in those cavities where appearance is a secondary consideration. Gold is considered the most permanent of the fillings. There are two ways of using gold; one is by malleting pure gold foil into the cavity and thus making the filling in the tooth that it is to protect, the other way is to make the filling outside the mouth from a very accurate wax pattern of the cavity. This is the most modern method and is called an inlay.

Daughter Will Not Live With Kaiser

Refuses to Keep House For Him in Holland

The former Kaiser's daughter has declined his request that she go and keep house for him in his exile writes a correspondent. His patient wife is in her grave. His sons are scattered about, spending the income of the empire, the collapse of their father's soaring ambition to rule the world by force of arms. And Wilhelm frets and fumes in what is practically captivity in Holland. A weary man, he doesn't enjoy his life in exile. He has no friends, no one to whom he can turn for comfort, and constant comparisons of his present wretched condition and circumstances with the power and glory that once were his, now wasted away in the blood of millions of his fellow creatures. No wonder an exchange quotes him: "Which way I fly is hell; myself am hell."

It has Many Qualities. The man who possesses a bottle of Dr. Thomas' Electric Oil is armed against many troubles. It will relieve a cold, break a cold, prevent sore throat; it will reduce the swelling from a sprain, relieve a toothache, soothe persistent sore and it will speedily heal cuts and contusions. It is a medicine chest in itself, and can be got for a quarter of a dollar.

Fort St. John Has Young Hero

Small Boy Rescued Baby From Burning Shack

A tale of unconscious heroism, and of the calm self-reliance of the pioneer comes from the north country. The scene is Fort St. John, on the upper waters of the Peace River, and the actors, north country children, aged respectively six months and three and a half years.

At St. John, the Collins' were visiting the Rex family at their log cabin, and the mothers, intent on some business in connection with the visit, had left the children in the cabin, while they went to another building some little distance away.

Baby Rex, reposed his small person on a bunk, and slept soundly, while baby Collins played. Close to the heater a pile of split kindling was piled, and by some unknown means this toppled over and fell against the heater, where it soon caught fire.

In a short time the cabin was in flames, and when the mothers presently returned they did so to find a blazing inferno. Their panic soon turned to relief, however, when they met a small figure plodding up the stairs, carrying a little wagon in which he carried baby Rex quite unharmed and unconscious of the fact that his life had been saved by the coolness and heroism of the other child.

Asked for particulars of the incident, baby Collins stated calmly: "I saw the shack was a mass of flames, but nothing daunted, I climbed up into the bunk where the baby lay, lifted him down, and carried him through the flames to the safety of the open air."

At the present time Bobbie Collins is the hero of Fort St. John. Is it to be wondered at?

USE SLOAN'S TO WARD OFF PAIN

LITTLE aches grow into big pains unless ward off by an application of Sloan's Liniment. Rheumatism, neuralgia, stiff joints, lame back, toothache, fight long against Sloan's Liniment. It certainly does produce results. It penetrates without rubbing. Keep this old family friend always handy for instant use. Ask your neighbor.

At all druggists—35c, 70c, \$1.40. Made in Canada.

Sloan's Liniment

Manitoba Beekeepers May Organize

Will Work for More Efficient Marketing of Honey. A movement is on foot to organize the beekeepers of Manitoba for more efficient marketing of honey and the chase of surplus. More than 700 beekeepers already have been listed, and it is estimated that there are as many more unlisted in various parts of the province. At Beausjour, Ladywood and Brokenhead, beekeeping societies have been organized, and the settlements. These colonies produced more than 25 tons of honey this year.

WOULD NOT BE WITHOUT BABY'S OWN TABLETS

Once a mother has used Baby's Own Tablets for her little one she would not be without them. The Tablets are a perfect home remedy. They regulate the bowels and stomach, drive out constipation and indigestion; break up colds and simple fever; make baby healthy and happy. Concerning them, Mrs. Noble A. Pyle, Secum, N.S., writes:—"I have found Baby's Own Tablets of great benefit for my children and I would not be without them." The Tablets are sold by medical dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

How's This?

HALAL'S CATARRH MEDICINE will do what we claim for it—rid you of Catarrh of the Bladder, Catarrh of the Uterus or Catarrh of the Prostate. It is a liquid, taken internally, and acts through the blood upon the mucous surfaces of the system, thus reducing the inflammation and causing nature to restore normal conditions.

All Druggists. Circulars free. F. J. Cheney & Co., Toledo, Ohio.

Wolf Weighed 78 Pounds

Terror of Arizona Cattle Killed After Three-Year Hunt

Lobo, the wolf, king of Arizona cow-killers, is dead. After a long and successful career as a cattle bandit on the Arizona plains he was killed by a government hunter who brought him down with one shot. He weighed seventy-eight pounds after the skin from the shoulders to the head had been removed, and was the largest wolf ever seen on the plains.

For three years, according to reports received by the Department of Agriculture, Lobo took toll of pure bred Hereford stock near the town of Kingman, slaughtering all hunters and leading apparently charmed life. Once every two weeks the bandit wolf went over his trail. On one ranch alone fifty-five white-faced yearlings had fallen victim within a year. Other ranchers told stories of Lobo's depredations. Wary of men, the big fellow did not mind the near approach of an automobile containing the hunter and fell dead at the first crack of the rifle. The cattle men of Arizona are now sleeping easier, and several thousand dollars in stock will be saved annually.

Danger From the Air

Paris Air Congress Taking Steps to Protect Public

One of the most vital matters for debate at the air congress in Paris will be the steps which must be taken, with always growing and flying airships about to ply for hire, to deal with the "air hog."

There was a case the other day where a passenger carelessly threw overboard from an "air express" an empty bottle, which crashed on a road, narrowly missing several pedestrians. No wonder the "air express" now hear notices in their cabins warning people of the risk of throwing things overboard.

It is to the immediate future that the conference will look. Purely pleasure-type air machines are in design, carrying as many as fifty "cloud-trippers" in double-deck saloons, which will be run on super-express excursions between the capitals of Europe, and to install the occupants of such machines with a due regard for the safety of persons on the earth beneath will be a vitally necessary precaution.

A Delicate Task. Kenneth was coaching the football team of which he was a member, and said to the girl:

"You know young Barker? Well, he's going to be our best man before long."

"Oh, Kenneth," she cried, "what a nice way to propose to me!"

New Plant at Chilliwack. A new milk powder plant at Chilliwack has been completed and operations commenced. It will have a daily capacity of three thousand pounds.

For special advice women are asked to write to Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of forty years' experience is at your service.

The Knicker Suit For Sports Wear

By Marie Belmont.

Perhaps one of the most practical creations for outdoor sports is the knicker suit. This model is cut from a brown mixture twill which is enhanced with a narrow pin line of orange. The coat is elaborated with four large patch pockets that will be appreciated by those who wander afield. Leather buttons accentuate its sportswomanlike appearance, while the belt is slipped through a leather covered buckle. An orange felt hat trimmed with a band of brown ribbon gives a colorful touch to the costume. The brown wolf stockings reveal touches of orange in their fancy tops.

WOLF WEIGHED 78 POUNDS

Terror of Arizona Cattle Killed After Three-Year Hunt

Lobo, the wolf, king of Arizona cow-killers, is dead. After a long and successful career as a cattle bandit on the Arizona plains he was killed by a government hunter who brought him down with one shot. He weighed seventy-eight pounds after the skin from the shoulders to the head had been removed, and was the largest wolf ever seen on the plains.

Quicura

Quickly Soothes Itching Scals. Treatment: Gently rub Quicura Ointment with the end of the finger, on spots of dandruff and itching. Follow next morning with hot shampoo of Cuticura Soap. Repeat in two weeks. Nothing better than these fragrant super-creamy emollients for all skin and scalp troubles.

See Dr. Ointment 25 and 50c. Quicura Soap 25c. Sold everywhere. Quicura Soap 25c. Sold everywhere. Quicura Soap 25c. Sold everywhere.

Chartered Thirty Ships

Vancouver Merchants' Exchange Ship

Thirty deep-sea ships were chartered by the Vancouver Merchants' Exchange to carry lumber or grain from Pacific Coast ports. Nine vessels closed for lumber, one for mixed grain and lumber cargo, and the balance for grain. They include several Japanese steamers, nine British, three American and the balance Spanish, French, Dutch, Norwegian, Swedish.

"Cascarets" Tonight For Liver, Bowels

You're bilious! You are headachy, constipated, your eyes burn, skin is yellow; your stomach is sour, easy, upset. No wonder you feel miserable. You need a thorough physic with "Cascarets" tonight to cleanse the stomach of sour, fermenting food and foul gases; take the excess bile from the liver and carry out of the system all the constipated poison in the bowels. Get a 10-cent box now and let "Cascarets" straighten you out by morning.

Indiana Make Bread From Moss

A kind of bread is made along the Columbia River by the Indians from a moss that grows on the spruce fir tree. This moss is prepared by placing it in heaps, sprinkling it with water, and permitting it to ferment. Then it is added into balls as big as a man's head and these are baked in pie.

X-Ray Revealed the Ring

Suspect of having swallowed stolen rings before she was arrested, a woman arraigned in a police court in Rochester, England, recently, was subjected to an X-ray examination with the result that the rings were seen in her stomach and recovered.

Slightly Off

"What's the 'proletariat' I read about in the papers, Mike?" "It's what the cowboys use to catch wild horses, ye 'ignoramus."

BEAUTY OF THE SKIN

Is the natural desire of every woman, and is obtainable by the use of Dr. Chase's Ointment. Pimples, blackheads, roughness and redness of the skin, irritation and eczema disappear, and the skin is left soft, smooth and velvety. Ask for Dr. Chase's Ointment, J.C. Chase, Limited, Toronto. S. R. Bowerman
THE HARDWARE MAN

HAPPENINGS OF LOCAL INTEREST

BORN—To Mr. and Mrs. Oliver Rogers, of Prince Rupert, on Tuesday, November 1st, a daughter (Coral).

There are special sailings, boat and rail fares for the Old Country and Eastern Canada for the Xmas and New Year holidays. Any information can be obtained from Geo. Harper at the depot.

Mr. A. Wheaton is busy building a new milk house out on his farm these days.

We are showing the first samples of Private Greeting Cards for Christmas and the New Year at the Star office and the prices are reasonable. Let us have your order early.

Read the Big Advt. for the 1c sale at the Wainwright Pharmacy and profit thereby.

Owing to the serious illness of her father, Mr. Pitkie, of Vermilion, Mrs. G. L. Hudson was called to the parental home last week. Mrs. Hudson will probably be away for a couple of weeks and we hope for a good report upon her return.

Dr. H. C. Wallace and Mr. R. Hunter were among the guests at the big "Forty-Niners" banquet in the city on Armistice Night.

We regret to hear that Mrs. C. Church is still on the sick list with a very bad cold.

The Sunbeam class of St. Andrew's church will hold a sale of home cooking on Saturday next in the Model Meat Market, when it is hoped that their efforts will be appreciated.

Mr. Tom Scott was in town from Edgerton last week accompanied by his sons.

Mr. W. T. Brunker, although not quite off the sick list is around again.

Did you order your Storm Sash yet, from the Atlas Lumber Co. Ltd?

We regret to hear that Mrs. H. L. Hoehn is on the sick list these days and The Star extends wishes for her speedy recovery.

As the outcome of a congregational meeting at St. Andrew's church on Friday last, a call will be extended to Rev. Mr. Pate of Calgary to take charge here.

Tickets will be on sale for the big G. W. V. A. New Year's Eve Ball. Further particulars later. Get your ticket and save the date.

One Cent will buy the second of any article in our big sale on Thursday, Friday and Saturday this week.—Wainwright Pharmacy.

Mr. A. K. Madsen, who has been at the local Creamery for the past two years or so left on Monday for Riley where he will manage the co-operative creamery being run at the point.

From what we learn arrangements are being made by Mr. W. Sequin to shortly open up a new "quick lunch" and refreshment store in the old Zinkan building on Second avenue.

If you are thinking of mailing your private greeting cards to the Old Country let us have your order for same early. Drop in and see samples.

The usual fortnightly meeting of the members of the Rebekah degree will be held tomorrow night in their hall when nomination of officers for the ensuing term will be opened.

Mr. J. Hall, the ophthalmic optician will be at the Edgerton hotel on Wednesday next, November 23rd, for the purpose of eye-testing.—J. Hall, eyesight specialist, Wainwright.

WASHBURN'S
IF IT'S HARDWARE WE HAVE IT

The G. W. V. A. local which met on Saturday last decided to again hold their annual New Year's Eve Ball. It is dated for Friday, Dec. 30th. Save the date.

Mr. J. Forrest was a visitor to the city for a couple of days last week.

In honor of our soldier dead "Poppy Day" was most fittingly observed in town, hundreds of these silent souvenirs being worn.

Mr. J. L. Gerow, is the secretary of the curling club and all those intending to curl this winter should pay their dues to him as soon as possible.

After several weeks sickness of a serious nature, we are glad to know that Mrs. S. R. Bowerman is now able to be around again although still some what weak.

The Mayfield Literary society open their winter session tonight in the schoolhouse to which all are welcome. A pleasing programme has been arranged, the main feature of which will be an address by Rev. H. Wilson on "Irish Folklore."

Thanks to the work the executive of the curling club have put into their rink, the ground for the sheets of ice is now in better shape than ever before and good ice will be assured for the coming season.

We are glad to note that after a severe cold which enforced a week's "shut-in", Rev. Father Lemaire is now around again as lively as ever.

FOR SALE—Splendid Piano; brand new; never been used; easy terms arranged to responsible party.—Write "Piano" Star office.
